

Dear Parent or Guardian,

Adolescent immunization rates show that many Mills County children have not received their recommended vaccinations. Please help protect your children ages 11-18 by having them get their vaccinations against cancer and other diseases. Take time this summer to make sure that your children are up to date with their shots. For more information, contact your physician or Mills County Public Health at [712-527-9699](tel:712-527-9699).

Sincerely,

Lorri Greiner RN
Immunization Coordinator
Mills County Public Health
